SUMMARY

Software Engineer with hands-on experience building and maintaining full-stack web applications using Laravel, Vue.js, Nuxt, and MySQL. Experienced in RESTful API development, authentication, real-time features, database integration, and responsive web interfaces. Seeking a Fresher Software Engineer position to further develop software engineering skills and contribute to production-level applications.

EDUCATION

University of Transport and Communications (UTC)

Bachelor's Degree in Information Technology | 2026 – Present
Expected Graduation: 2028

FPT Polytechnic College

Web Development | 2023–2025
GPA: 3.68/4.0

TECHNICAL SKILLS

- Backend: PHP, Laravel, RESTful APIs, MySQL
- Frontend: Vue.js, Nuxt, Next.js, JavaScript, TypeScript
- UI: HTML, CSS, Tailwind CSS, Bootstrap, responsive design
- Realtime & Integration: Socket.IO, LiveKit, Google Maps, payment APIs
- Tools: Git, GitHub, Postman,Codex, Antigravity

WORK EXPERIENCE

Hisotech Company

Full-stack Developer Intern → Fresher Full-stack Developer **04/2026 - 10/2026**

- Completed a 3-month internship and transitioned to a full-time Fresher Full-stack Developer position.
- Developed and maintained web applications using PHP, Laravel, Vue.js, Nuxt, and MySQL.
- Built responsive user interfaces and reusable components for desktop and mobile devices.
- Integrated REST APIs and implemented authentication, real-time communication, payment, wallet, product, and media-related features.
- Investigated and resolved issues across frontend, backend, API, and database layers.
- Used Git/GitHub for source control and supported environment setup, builds, testing, and deployment.

PROJECTS

LongTech E-commerce Platform — Laravel, Vue.js, MySQL

- Developed authentication, product management, cart, checkout, order, inventory, and administration features.
- Built RESTful APIs and designed database relationships for users, products, orders, and inventory.
